Theme 3: Fairness in Taxes Lesson 4: Proportional Taxes

Proportional taxes take the same percentage of income from all income groups. Here are three proportional taxes in the fictional country of Proportionalia. The charts show how the taxes affect lower-income, middle-income, and upper-income levels.

INCOME TAX IN PROPORTIONALIA				
Income	Percentage of Income	Tax Amount		
\$10,000	15%	\$1,500		
\$50,000	15%	\$7,500		
\$100,000	15%	\$15,000		

PROPORTIONALIA'S 7% SALES TAX				
Income	Amount Paid in Sales Tax on Year's Worth of Taxable Merchandise  Percentage of Incom Paid in Sales Tax			
\$10,000	\$1,000	10%		
\$50,000	\$1,000	5%		
\$100,000	\$1,000	1%		

REAL ESTATE TAX IN PROPORTIONALIA				
Value of Home	Tax Rate	Tax Amount		
\$50,000	4%	\$2,000		
\$100,000	4%	\$4,000		
\$300,000	4%	\$12,000
